PETAIN HOLDS NEW POSITIONS WON ALONG AISNE

**Germans Lose Heavily and
300 Prisoners Taken By
the French**

**STILL DRIVING TOWARD
GERMAN FORTRESS OF LAON**

**Entente Rapidly Organizing
Greeks Since Venizelos
is On Scene**

(Associated Press Telegram)
New York, June 26.—General Petain has resumed his dashing operations on the Aisne front and today reports a brilliant success for his troops in a surprise attack northwest of Hurbise. The entire first line of the strong German position there was carried and held against counter-attacks. The Germans were badly cut up, besides losing more than 300 men in prisoners.

It is in this sector, between Craonne and Cerny, that the most feasible route lies to the German fortress of Laon, the vital support of the whole German line on the French front. Last night's effort by the French seems to indicate that their chief command has no idea of letting control of the situation here slip from its grip under the nagging tactics recently adopted by von Hindenburg, who has been trying his best by thrusts here and there to wrest control of dominating points from Petain's forces.

The entente is proceeding rapidly with the execution of its program in Greece. Former Premier Venizelos, steadfast supporter of the allies, has arrived in Athens to proceed with the work of forming a cabinet, to which King Alexander has summoned him, and it is expected that he will have his new government shaped by Wednesday, Athens advises state.

A proposition that Greece join the allies in the war is expected to be presented to the parliament soon after its convocation, according to special dispatches. These add that three months time may find Greece in the field with her entire forces, after a campaign of educating the people to the facts of the situation which M. Venizelos is expected to conduct.

In the Greek capital there has been some trouble with the reactionary elements, today's dispatches show, and French troops yesterday entered the city and occupied several positions there to assist in the maintenance of order.

British aircraft waged a brilliant fight over Flanders on Monday, three naval machines engaging ten German airplanes. In a 16-minute battle the Germans were worsted, one machine being brought down in flames, while two others were believed to have been driven down out of control. The British came through unscathed.

GERMANY ADMITS LOSSES.
(Associated Press Telegram)
Berlin (via London), June 25.—The French troops which penetrated the German lines northwest of Hurbise on the Aisne front were subjected to a counter-attack and ejected from the greater part of the positions they had occupied, army headquarters announced today.

**157 DEAD IN AIR
RAID OVER LONDON;
NEARLY 500 HURT**

(Associated Press Telegram)
London, June 26.—Official figures of the casualties in the London air-raid of June 13 were announced yesterday. Subsequent deaths and the discovery of more bodies in the debris have brought the number of dead to 91 men, 24 women and 42 children. The injured number of 230 men, 110 women and 100 children.

**COMMITTEE HAS
FOOD BILL; IT MAY
BE CHANGED SOME**

(Associated Press Telegram)
Washington, June 26.—The food control bill was taken up today by the senate agricultural subcommittee with many objections confronting it, chief among which were the drastic prohibition features of the measure as it passed the house. The committee hopes to present its draft of the bill to the senate tomorrow and prospects are that important modifications, designed to overcome some of the objections to the measure will be made.

It was expected that the principal fight would revolve around the house provision to prohibit further manufacture of foodstuffs into intoxicants of any kind with intent to sell them. The bill would permit manufacture of malt liquors and wines.

FARMERS FREED FROM PROVISIONS OF FOOD MEASURE

**Senate Committee Removes
Clause Which Causes
Most Opposition**

**GIVE GOVERNMENT CONTROL
OF IRON, STEEL AND OIL**

**Farm Implements and Sup-
plies Also Subject to
Supervision**

(Associated Press Telegram)
Washington, June 26.—Extension of government control to iron and steel and their products, petroleum and its products, farm implements and sisal, jute and hemp products, such as binding twine, was decided upon today as an amendment to the administration food control bill by a senate agriculture subcommittee. Addition of other articles is under consideration.

Other amendments agreed to by the subcommittee, which will remove much opposition to the legislation, provides that the bill shall not apply to farmers, gardeners and stockraisers products raised upon their own land and shall not give the food administrator power to impose individual rationing or regulate their meals. The committee deferred action upon the prohibition sections.

**DISCONTENT OF
STOMACH IS THE
GREATEST PERIL**

(Associated Press Telegram)
London, June 26.—"Discontent of the stomach is more to be feared than discontent of the brain—that is why we value the co-operation of farmers." This statement was made by R. E. Prothero, minister of agriculture, to the Associated Press today. "The outcome of the war," said Mr. Prothero, "may ultimately hang on the question of food supplies and the American farmer is allotted the essential part to play in the great struggle for freedom."

This declaration, with a note of welcome to agriculturists across the sea, "who are determined to use every ounce of their strength to win the war on the plough lands of the United States," was the keynote of the minister's message to the American farmer.

**PRIEST IS ASKED
TO TELL OF VISITS
OF ARCH MURDERER**

(Associated Press Telegram)
New York, June 26.—Something of the movements of Alfredo Cocchi, confessed slayer of Ruth Cruger, immediately after the murder last February were expected to be disclosed today by the Rev. Gaspar Morretto, manager of the St. Rafael Society for Italian Immigrants. A subpoena calling Morretto before Edward Swann, district attorney, was issued early today following the receipt of dispatches from Bologna, Italy, stating that Cocchi in confessing his crime had asserted that he spent two nights in the house of the priest in Charleston street, this city, before he fled from the country on board a British ship. In a statement to an assistant district attorney, Father Morretto said that Cocchi came for confession about the middle of February. Cocchi was greatly agitated, he said, and left after confession without telling where he was going.

Statements also made by the priest disclosed that Helen Cruger, sister of the murdered girl, and a young man called on him later and asked if Cocchi had been to see him. Father Morretto told them, he said, that he had not seen Cocchi because neither Miss Cruger nor the man with her had any official standing and were not entitled to the information.

At the public inquiry today before Leonard M. Wallstein, city commissioner of accounts, John R. Large, the detective who was assigned to the Cruger case when the girl was first reported as missing, was to be called to give further details of his investigation of missing persons and the grill system followed by the police in such cases.

**QUAKE IS RECORDED;
CHILE MAY BE VICTIM**

(Associated Press Telegram)
Cleveland, O., June 26.—Rev. F. L. Odenbach of St. Ignatius College, reports a severe earthquake recorded on the seismograph in his observatory this morning. The preliminary shocks began at 1:08; secondary at 1:16; main at 1:36, and the end at 3:27. Father Odenbach estimates the distance at between 400 and 500 miles and thinks Chile may be the locality.

PLANNING TO BLIND EYES OF THE GERMAN ARMY WITH TREMENDOUS FLEET OF AIRPLANES

By HARRY E. EWING

United States aircraft production board in session.

The plans of these men are ambitious—nothing less than to build in America the greatest air fleet the world has ever seen, blind the eyes of the German army with it and insure victory for America. Thirty-five hundred airplanes are to be built this year, and 6,000 aviators trained. This board will place contracts for everything the government buys in aircraft. Left to right in the picture: A. C. Cable, of Chicago, secretary of the board; R. L. Montgomery, New York; Sidney G. Walden, Detroit; E. A. Deeds, Dayton, Ohio; Rear Admiral David W. Taylor, chief of the bureau of construction and repair, navy; Brig. Gen. George O. Squier, of the army, and Howard E. Coffin of Detroit, chairman of the board.

NEW OHIO UNITS RECOGNIZED BY WAR DEPARTMENT

**Decision Means Ohio Troops
Will Be Accepted As
Division**

**OHIO FAVORED FOR PROMPT
RESPONSE WITH VOLUNTEERS**

**Promotions and Appoint-
ments In National Guard
Will Become Effective**

(Associated Press Telegram)
Columbus, June 26.—Federal recognition to all authorized new units of the Ohio national guard as of June 30 was announced in a message to Governor Cox and Adjutant General George H. Wood from the secretary of war through the provost marshal general's office today.

This means that all Ohio units, including the new Tenth Regiment, Companies H and M of the Fifth Regiment and Batteries E and F of the field artillery have been given official recognition. Ohio guard officers see a far greater significance in the announcement, believing that it is the biggest step the state has been able to take toward obtaining a complete division of guardsmen, for which all officers have been diligently working.

With the announcement came a statement that Governor Cox today will officially confirm the appointment of Colonel Charles X. Zimmerman, of Cleveland, as brigadier general and officially advance Lieutenant Colonel Davis, of Norwalk, promotions in guard service that were tentatively announced several weeks ago.

The war department today in an official statement made it known that Ohio had furnished more than 25 percent of the recruits who joined national guard organizations of all states between June 10 and June 20. Ohio's enlistments numbered 2733 and the total in the United States was 9700, New York ranking second, had 1300 enlistments.

Other appointments were announced from the governor's office during the day, Charles A. Sawyer, of Cincinnati, now in the training camp at Fort Benjamin Harrison, and Charles Zimmerman, of Springfield, being commissioned majors in the judge advocate's department and Dr. Harry F. Rapp, of Portsmouth, first lieutenant in the medical corps and assigned to the Second Field Hospital, Columbus.

**U. S. SOLDIERS IN 1776 GOT \$60 YEAR;
PERSHING'S BOYS TO GET \$30 MONTH**

(Associated Press Telegram)
Chicago, June 26.—An interesting comparison between the pay received by men who served under George Washington and that which will be paid American soldiers who go to France in Pershing's war army was seen today in a recruiting argument which placed a poster of revolutionary days side by side with one appealing for men now. The men who won freedom for the United States received \$60 a year, "the whole of which the soldier may lay up for himself and friends," according to the poster which points out that ample rations were allowed the army and "an annual and fully sufficient supply of good and handsome clothing."

The man who enlists during recruiting week will receive not merely food and clothing, but at least \$30 a month with an automatic increase of 20 percent when ordered to foreign service. If he qualifies as first class private, he will receive \$33 a month and men with trades do even better. Cooks especially are wanted at \$38 a month.

Licking county claims the Ohio banner for rural counties. Complete returns from townships and city may make Licking county's pledges reach \$63,000. Licking county is a 156 per cent county and the people who have by their generosity made this possible are to be congratulated. The organization, the committees in both Newark and in the country districts, have done splendid work.

VENIZELLOS READY TO FORM CABINET; IS NOW IN ATHENS

(Associated Press Telegram)
Paris, June 26.—A Havas dispatch from Athens says that former Premier Venizelos, who has been commissioned by King Alexander to form a new cabinet, arrived at Athens yesterday and will be received by the king.

WILL NOT FORCE GREEKS.

(Associated Press Telegram)
London, June 26.—A dispatch to the Times from Athens says that as soon as parliament is convened M. Venizelos will probably propose to the deputies that Greece join the allies. He does not intend, however, to mobilize the nation against its will. He is expected first to undertake a great campaign explaining to the people that Greece's interests are bound up in the entente cause.

If his mission is successful he will be able in about three months to put the entire forces of Greece into the balance.

A Reuter dispatch from Athens says, it is stated on good authority that M. Venizelos will form a cabinet not later than Wednesday.

WANT SAFE AND SANE FOURTH.

(Associated Press Telegram)
Harrisburg, Pa., June 26.—In a proclamation issued today, Governor Brumbaugh calls upon citizens to observe "a safe and sane" Fourth of July, counseling them to avoid such forms of celebration as are hazardous to life and property.

RED CROSS FUND NOW \$104,000,000 STILL POURING IN

(Associated Press Telegram)
Washington, June 26.—The Red Cross "humanity dollars" campaign passed its mark today with a total of \$104,000,000 tabulated at noon and returns still coming in. The Red Cross war council predicted a total of \$110,000,000 by nightfall.

The extent of the over-subscription depended largely on the success of campaigners in New York and a number of other cities where the solicitation was continued today.

Headquarters tabulations early today showed a total of \$100,500,000, with some cities yet unreported. This included \$35,993,000 from New York.

Stories of generosity which amazed even the campaign directors, reached headquarters today. Wealthy men and women gave millions, and those of smaller means subscribed to the limits of their ability. Hundreds of cities went far past the goals previously set forth.

Several hundred thousand volunteer workers participated in the intensive canvass, which was unique in American history.

Only three weeks ago were the plans for the nation-wide drive formulated by the new Red Cross war council. To organize the country on such short notice was a tremendous task, but it was accomplished mainly by enlistment of trained campaign managers of the Y. M. C. A. and chambers of commerce to assist the 1500 Red Cross local chapters. All dropped their usual work and plunged enthusiastically into the work. Most gave their services free.

Harvey J. Hill, a Red Cross worker, directed the campaign from Washington, and Charles S. Ward from New York.

The middle Atlantic division was the first to report an over-subscription of its \$17,000,000 apportionment. Reports early today showed an excess of about \$500,000.

In this division, Englewood, N. J., originally apportioned \$29,000, subscribed \$41,900. Montclair, N. J., apportioned \$25,000, subscribed \$270,000.

DELAYING FEDERAL PROJECTS.
Seward, Alaska, June 26.—The United States grand jury in a report yesterday asserts that certain federal employees opposing the war are seeking to delay federal projects and enterprises in Alaska. The charge had been made that opening of the coal fields was being wilfully delayed. The present finding also apparently covers the United States railroad.

ROOT IS BUSY TELLING SLAVS OF U.S. LOYALTY

**Delivers Six Addresses In
24 Hours While In
Moscow**

**HAS CONFIDENCE IN THE
PROVISIONAL GOVERNMENT**

**Speaks to Crowds Representing
All Shades of
Political Belief**

(Associated Press Telegram)
Moscow, Saturday, June 23.—(Delayed.) In the first 24 hours of his stay in Moscow, Elihu Root, head of the American mission, addressed six important organizations, representing every kind of industrial activity and every shade of political belief. In each instance he was received with the liveliest interest and enthusiasm, not only by representatives of the government, but by the workmen and soldiers' delegates, who listened eagerly to Mr. Root's account of the way in which America is mobilizing all her resources in the struggle to preserve democracy.

In a speech before the military and industrial committee today, Mr. Root said: "I do not think we fully appreciated the difficulties under which you have labored. A study of conditions since our arrival reveals those difficulties as far greater than we supposed. That increases our admiration for the courage, persistency and public spirit with which you have carried on your great work in the last two years."

"There are some distressing conditions here, some distressing influences operating in an attempt to hinder your future efforts. Of course, if the revolution were now to proceed to the destruction of all industrial enterprise that must end your work, and there are plainly some malign influences which desire to accomplish that result. I have, however, the greatest confidence in the sincerity of purpose and the strong determination of the provisional government at Petrograd to combat and counteract those influences and to maintain the industrial system of the country. It is indicated so plainly by conditions that the way to maintain industrial efficiency and continue the work of your committee is to stand by and support the authority of the provisional government, that I cannot doubt such support will be given and continuously."

**AMERICAN CITIES
EXCEED INCOMES
SAYS U. S. REPORT**

(Associated Press Telegram)
Washington, June 26.—American municipalities have been living beyond their incomes, according to a preliminary census bureau report for the fiscal year 1916, made public today, which shows that the average per capita indebtedness for 213 cities is \$74.64, a figure nearly eight times as great as the corresponding figure for the national government. The excess of expenditures over revenues in these cities amounted to \$7,331,000, or \$2.28 per capita.

One of the most noteworthy features of the report is the rapid growth of the urban at the expense of the rural communities. Wartime conditions have increased the demand for workers in the cities, especially in munitions centers, and consequently there has been a great exodus from the country districts with a proportionate increase in the populations of the cities.

Of the 213 cities covered by the bureau's investigations, the commission found that 189 exist in surplus. The largest municipality operating under this plan is Buffalo, N. Y.

NO TIME TO REAP ADVANTAGE WHEN BOYS IN DANGER

**Sec. Lane Tells Coal Opera-
tors Fate of Nation In
Their Hands**

**URGES BOARD TO FIX
MINIMUM COAL PRICE**

**Declares There Are Greater
Things Than Making
Money During War**

(Associated Press Telegram)
Washington, June 26.—Four hundred bituminous and anthracite coal operators gathered here to consider reduction of coal prices for the government and public, joined in a demonstration of approval today when Secretary Lane warned them that the sensible, patriotic and American thing to do was to put into the hands of some one or some small group the fixing of a low price on coal.

Secretary Lane minced no words in telling the coal-men they should be patriotic enough to forego profits for successful conduct of the war.

"The success of the country in this great war," he said, "rests on you and you are responsible. Just the same as the soldiers in the trenches, Pershing in France or the President in the White House. You control the fundamental industry. How much vision have you? Are you small or big? Are you petty politicians or statesmen? The country will not stand anything but a large policy from large men. There must be some new adjustment of the coal industry. When your boys and men are going to the front is not time for you to reap an advantage even when it comes under normal demands of trade. The life of the nation is at stake and there are greater things than making money. Is there a man who will say to me:

"You can send your boy to France with I send here and coin his blood into dollars? No, no, no. American citizen is not to make a million dollars, but to uphold the arm of the man who is making the fight for his country."

LETTERS INTERFERE PRICE FIXING.
(Associated Press Telegram)
New York, June 26.—Letters intended to interfere the existence of price agreements among coal operators were introduced by the government today at the trial of 54 individuals and 103 corporations charged with violating the Sherman anti-trust law in the production and sale of coal in the semi-bituminous fields of Virginia and West Virginia.

At communication from Kuper Hood of the Homestead Coal & Coke company, of Cincinnati, to the Pocahontas Fuel company, here complained that he had learned through his customers that coal was being sold by the Pocahontas as low as \$1.40 and said:

"I do hope if this is correct you will take steps to stop it, for if continued, it will certainly demoralize the Chicago market."

A letter from T. F. Farrell of the Pocahontas company denying this accusation was read in evidence.

Another letter from W. P. Tams Jr., of the Gulf Smokeless Coal company, made similar charges against the Pocahontas, the writer saying: "I am not anxious to drag this matter into a general meeting but what I wanted was written denial by the Pocahontas Fuel company."

**PRICE OF CANNED
GOODS DOUBLED
BEFORE WE GET 'EM**

(Associated Press Telegram)
Washington, June 26.—Current retail prices on canned vegetables are nearly twice the prices paid canners by wholesalers for this season's output, the Federal Trade Commission reported today in connection with its investigation into food prices. The inquiry into canned goods, the commission explained, is "to forestall speculative prices."

Wholesalers are paying about 7-12 cents a can for corn and about 3-1-2 cents for tomatoes and peas, c. o. b. factory. The same cans are sold retail at an average of 17 cents for corn, 18 cents for peas, and 20 cents for tomatoes.

"A large part of the canned goods now being sold at these prices is last year's pack," says a commission statement, "and was sold by the canners at considerably lower prices than now prevail."

The statement does not attempt to analyze the difference in prices, but says:

"Next autumn and winter, if complaints are made in any locality that unreasonable prices are being charged for the canned peas, corn, tomatoes, salmon or similar products, which are now being packed, the commission will be in a position to promptly expose any extortion."

Reports have been received from about 2000 canning factories in response to the commission's inquiry. The commission will investigate quantities purchased by various dealers in an effort to prevent speculative holding.

LAI MAGAZINE ON BED TO TAKE NAP DIED WHILE ASLEEP

Harry Snodgrass, of Kenton, was found dead in bed in his room in the rooming house above the Newark Steam Laundry. The proprietor of the rooming house had noticed that Snodgrass was lying in bed at a late hour but supposing him to be asleep he did not disturb him. At noon he was still lying in bed. About 6.30 the landlady feared that something was wrong. Accordingly she and her husband went into the room and found him dead. The body was already cold. He was found lying on his side with his knees drawn up. A magazine was found face downward by his side. He evidently had been reading, laid down his magazine and passed into a sleep from which he never awoke.

Police Chief Sheridan was called and the body was removed to the Bradley morgue where it was prepared for burial.

The deceased was about 40 years old. Previous to his death he had made plans to spend the remainder of the summer at Buckeye lake. His brother, Dr. Snodgrass, of Kenton, will arrive in Newark this afternoon. Dr. C. F. Legge telegraphed last night to Snodgrass' guardian, J. P. Dilling, of Kenton, O. who wired in return, "Give all needed attention."

Coroner W. L. Jackson viewed the body but has not returned a verdict. Death probably was due to heart trouble.

Funeral arrangements will be postponed until the arrival of Dr. Snodgrass this afternoon.

NEWARK MEN HELP START PERRY CO. FUND CAMPAIGN

William E. Hopkins and Ed S. Randolph aided Thornville people start their Red Cross war fund campaign last night and judging from the interest and enthusiasm shown at the initial meeting Perry county will "do her bit" and establish a record.

The two Newark men were asked to speak at the opening meeting at Thornville last night. When they arrived they found the meeting place filled to overflowing. Mr. Randolph delivered an address at the regular gathering and Mr. Hopkins, with the help of Thornville people in charge of the meeting corralled the overflow crowd in another place and told them how the work had been done in Licking county where an exceptional record was made.

Both Newark men were received with enthusiasm which prompts a successful campaign in Perry county. William Hite, attorney, was placed at the head of the organization effected last night and the work of solicitation will start at once.

FORMER NEWARK COUPLE PASS BAR EXAM. TOGETHER

Among the successful applicants who recently passed the bar examination at Columbus were Mr. and Mrs. Louis D. Hedrick, both well-known in Newark. Mr. Hedrick formerly making her home here. Before her marriage she was Miss Sarah Phillips, and resided in North Fifth street. Mrs. Hedrick was graduated from St. Mary's of the Springs before her marriage, and in the recent examination ranked third in a class of 132.

Mr. and Mrs. Hedrick live at 1955 Summit street, Columbus. They have two small children, and in an interview given by Mrs. Hedrick she stated "we would like to start our career together, but somebody will have to provide a living for the babies."

So Mr. Hedrick will continue his employment in the claim-adjustment department of the Rail-Light company, while Mrs. Hedrick will start practicing law.

Y. M. C. A. ORGANIZER PRECEDES U. S. ARMY

Frederic B. Shipp.

General Secretary Frederic B. Shipp of the Pittsburgh Young Men's Christian Association has been chosen from among 4,000 association secretaries in the United States to organize the Y. M. C. A. war council work in France and Great Britain. The council, sanctioned by President Wilson, has ordered Mr. Shipp to proceed at once to France. He takes with him 40 secretaries, including Francis B. Sayre, son-in-law of President Wilson. Practically all these men are college or university graduates, with a knowledge of the French language.

NEWARK GROCERS DISCUSS REQUEST FOR ONE DELIVERY

Newark grocers are wrestling with the delivery problem since a request was made by the Commercial Economy board of the Council of National Defense that deliveries to patrons of retail groceries either be suspended entirely or curtailed to one delivery to each patron each day.

No decision has been reached pending the receipt of further instructions from the government.

A committee of the Ohio Wholesale Grocers' organization acting upon the recommendations of the commercial economy board, recommended full co-operation with the government in the matter. The report says the demand for one delivery is "not only a request, but a requirement." The committee further recommended that the practice of returning stale bread be discontinued. It is believed that this will have a tendency to make the grocers buy "closer" to their needs and thus conserve the food supply.

ROTHSTEIN BUYS SIXTH STORE; WILL OPEN FISH MARKET

Already the owner and proprietor of five grocery stores, known as the Star Groceries, Mr. Rothstein has purchased the stock and fixtures of the Steinmeier Meat and Fish market.

He will open a new meat and fish store at 34 South Third street, adjoining his South Third street grocery. This is the first venture of Mr. Rothstein in this line of business. But his large grocery patronage has felt the need of a meat department and it is being added at their request.

The new store will be sanitary in every respect and up-to-date. The cut-rate that has featured the grocery trade will prevail in the new line. The ability of Mr. Rothstein to buy in carload lots affords him the opportunity to offer his patrons a greatly reduced price.

No. Maude, dear: there is no reason why the red-headed soldier should be asked to dye for his country.

HIGH PRICES IN SPAIN CAUSING GENERAL UNREST

(ASSOCIATED PRESS TELEGRAM) Madrid, June 26.—The government yesterday decided to suspend the constitutional guarantees in Spain. The decision was reached at a special meeting of the cabinet yesterday, after which Premier Dato took to the palace the decree authorizing the measure to obtain the king's signature. It goes into effect today.

NO REASONS GIVEN.

Paris, June 26.—The decision to suspend constitutional guarantees in Spain was reached at a special meeting of the cabinet yesterday, after which Premier Dato took to the palace the decree authorizing the measure to obtain the king's signature. It goes into effect today.

Dispatches from Madrid give no special reason for this action. The constitutional guarantees have been suspended several times since the outbreak of the war and were restored only recently. It is assumed that the crisis through which the country is passing is not developing as favorable as Premier Dato hoped.

The cabinet headed by Marquis Prieto resigned on June 9 because of inability to cope with the various internal difficulties confronting the country. Widespread labor troubles, high prices of necessities, the cutting off of a large part of the country's export trade by the submarine campaign, leading to industrial depression; dissatisfaction in the army and irritation over the persistent pro-German propaganda which has been carried on combined to produce a dangerous situation and at times there has been fear of a revolutionary movement. The Dato cabinet was formed on June 12 and subsequent press dispatches from Madrid said the situation had improved considerably and that the crisis had passed.

The new premier, while appreciating the fact that very great problems confronted the government, expressed confidence that they were not beyond solution.

FAMOUS ATHLETES ARE AMONG THOSE REJECTED

Ft. Harrison, Ind., June 26.—The physical examination of the men who are now in training here is very rigid and many of the men are failing to come up to the required mark.

One of the remarkable things about the examinations of the students is that some of the finest athletes have been marked for discharge. Two of the most noted football players of the past season—one a member of one of the leading eastern teams, and another captain of a western eleven who was mentioned for the All-American team last winter, have been compelled to go on account of flat-foot.

Otherwise these men were physically perfect. They broke down and cried when told that they could not continue in the service. The officers reserve began its seventh week yesterday. The Ohio boys are on the rifle range.

CANUCKS DRIVE GERMANS FROM 13-4 MILE LINE

(ASSOCIATED PRESS TELEGRAM) Canadian Army Headquarters in France, June 26.—Canadian troops entered the village of La Couille this morning. The Germans have withdrawn in this neighborhood from a line about one and three-quarters miles long.

In their general advance on Lens the Canadians have occupied the strongest outpost in the defense of that place and have pushed their troops toward La Couille. The increasing pressure on the enemy in the Sonchez valley during the last few weeks has brought signal success to the British arms with relatively slight loss.

BRITISH NEAR LENS.

(ASSOCIATED PRESS TELEGRAM) British Headquarters in France, June 26.—The British are closing in about Lens. After the capture Sunday of Fosse 3, and enemy trenches west from the hill and from the Lens immediately south of the Sonchez river several new positions have been occupied in this region near Lens. Patrols are advancing across the plains in an easterly direction. Thus the great mining center is being slowly encircled. For weeks Lens has not been exploited economically by the Germans and now it is directly menaced by the military.

DOUGHTY PROVES DEALERS KEEP UP SELLING PRICES

(ASSOCIATED PRESS TELEGRAM) Columbus, June 26.—Declaring he could prove that the middlemen and not the farmers and gardeners are making the big profits in food-stuffs, Clark C. Doughty, member of the Franklin County Liquor License Commission today placed on sale nine wagon loads of fresh vegetables which he purchased himself and which he sold at a profit.

On a dozen stands opposite the state house, Doughty sold head lettuce at one cent a head, onions for one cent a bunch and beets at two cents a bunch. Other vegetables were sold at correspondingly low prices.

Seven wagon loads of produce he had contracted for failed to reach the stands and Mr. Doughty said he has proof that market dealers stopped the drivers and offered them higher prices for their produce. Mr. Doughty said he would prosecute the dealers.

Hundreds of buyers were attracted by the novel sale and demonstration.

Can nothing that can be kept without canning. Dry such vegetables as corn, string beans, navy beans, mature lima beans, okra, etc.

WEST END FORMS AUXILIARY TO THE RED CROSS SOCIETY

At the mass meeting held last night in the Umstot hall, corner of West Main and Williams streets, a West End Auxiliary of the Red Cross Society was organized. A free will offering was taken and \$3.25 was secured. The following officers were elected:

President: Mrs. William May. Recording Secretary: Mrs. L. Freedberg. Corresponding Secretary: Mrs. L. E. Hiller.

Treasurer: A. E. Shrimpton. The society will meet on the afternoon of Tuesday, July 3, at 1:00 o'clock in the Umstot hall. There will be an all day meeting on the Wednesday of each week following that day. The room will be fitted up with machines and will be open from 8:00 a. m. to 4:00 p. m. Every woman in West Newark is asked to join the work for all day, half a day or even a few hours. There will be plenty of sewing machines, and garments will be made for the soldiers. No dues will be exacted, but a free will offering will be taken for the worthy cause. The new organization is an auxiliary of the local chapter down town and works in co-operation with it.

RED CROSS NOTES.

Through an error the representatives of the Prudential Insurance company were not given credit for a contribution of \$11 made early in the campaign. The captain receiving the contribution through an error reported it in the name of the representation turning in the money.

The Ladies Aid of the Liberty M. E. church will give an ice cream social Thursday evening, June 28, at the home of T. S. Africa, near the church, for the benefit of the Red Cross. Newark friends are invited. An auxiliary of the Licking County Chapter of the Red Cross will be formed. These ladies are ready to sew for the soldiers and this meeting will help them get started. Let Newark give them a boost and help increase the funds for Liberty!

CITY AGAIN WINS FRANKLIN BANK CASE IN COURTS

By a decision of the Ohio supreme court in Columbus today the city of Newark won and both the common pleas court and court of appeals of Licking county were upheld in an appeal by the Franklin National bank against Newark, in which city had been given judgment for \$1,039.63 as profit the bank had secured from use of the city's money. This was a test case in which several banks were interested.

The Russians aren't rush'n to the attack the way they ought to.

It is claimed that the United States can put it over the Germans by attacking them from the air.

The hogs that consume the wasteful modern garbage pail must wonder what the family had left to eat.

While the food speculators make \$250,000,000 according to Mr. Hoover, Congress continue to make speeches.

The Kaiser says Germany's mailed fist is going to put Constantine back on the throne of Greece, but he carelessly neglected to name the date.

The fact that you have a best girl who expects a call every Sunday night will not be considered sufficient excuse by the Exemption Boards.

These German peace terms are simply another case of our keeping the turkey and you have the crow, or you have the crow and we keep the turkey.

It is not necessary for the women gardeners to rig themselves up with taffeta dresses with white sailor collars and cuffs before going out with the hoe.

Billy Sunday has given \$114,000 to the Red Cross and Y. M. C. A. work among the soldiers, but the contributions to these causes from Billy's critics have not yet been recorded.

In view of the difficulty of digging the Germans out of the trenches, it is probable that next time there will be some fortifications other than haystacks erected along the German frontier.

Kaiser Bill says a lot about what Germany's mailed fist is going to do, but just now that mailed fist seems to be principally busy in digging concrete shelters about 17 feet under ground.

Some people's idea of freedom seems to be to get out with a gun and bag a lot of song birds for pot pie, the same being the ones that keep the insects off the farmer's crops.

The earnestness with which the householder urges the family to conserve food in response to the government's patriotic appeal, is no doubt slightly tinged by a contemplation of last month's grocery bill.

It is surprising how people swell out at the thought of the patriotic act they have performed, when they have merely bought a Liberty bond and arranged for an absolutely sure income at a good interest rate.

The champion economizer is reported from Whitinsville, Mass., the man who cut off his wife's stockings to make socks for himself. But to make the story really complete, he should have used the rest of the stockings for undershirts for the children.

OUR AIRPLANES FOR MILITARY USE.

(Pittsburg Gazette-Times.)
A billion dollars, the sum it is now suggested congress appropriate for the construction of airplanes and the training of a division of flyers, would be a small price to pay for deciding factor of the war. It is likely that sum, or a goodly portion of it, will be granted if just one question is settled in advance. When the airplane is mentioned the mind naturally reverts to the use Germany has made of her aerial fleets in raids upon the defenseless cities and towns of England. The killing and maiming of innocent women and children and non-combatant men without the achievement of anything of military value has horrified Americans. They regard the airplane as they do the submarine—as an instrument of atrocity. They cannot endure the thought of American soldiers engaging in such horrible work as the Germans have delighted in. Murder in any guise is repugnant to them. They would not give a dollar to promote reprisals in kind upon the enemy. They are right.

But nothing of this sort is proposed. The American flying division would be used in military service against the armies of the kaiser. international law would be respected. Civilian populations would not be molested. The flyers would be supplemental to the artillery and infantry. They would attack the fighting forces of Germany from the air, demoralizing them, breaking their resistance to our men on terra firma, and assisting more than anything else could in sweeping them back to their own soil. To such use of the airplane there can be no reasonable objection.

RULED OUT.

(Ohio State Journal.)
A woman attended the bar examination the other day and came out first in a class of 132. That was a great triumph. But she won't be able to vote. Her great ability will not entitle her to that privilege. But there is a man out in the edge of town who can hardly tell his right hand from his left and who thinks the moon is made of green cheese; he can vote. And ten to one, when he comes to vote, he will vote against permitting this educated lady to vote. There are many just like him who do not believe in allowing a woman any rights or privileges because she is a woman. That is a great fault in the eyes of these men, who think a woman is out of her place when she is exercising a right. We would hate to look at it that way. Here are these women, as grand patriots as live, and as ready to sacrifice all for their country as the ballot box. Don't stand for any such wretched policy. Don't let any prejudice against your mother or your wife deter you from voting for them at the next election.

FOREIGN TRADE FIGURES.

American exports in May were valued at \$551,000,000, a gain of nearly \$21,000,000 over April, according to a statement just issued by the Bureau of Foreign and Domestic Commerce, of the Department of Commerce. The total exports for the 12 months ended with May were valued at nearly \$6,183,000,000, the highest figure ever recorded for any one year.

Imports for May were valued at \$281,000,000, the greatest total for any one month in the history of American commerce. For the year ended with May goods to the value of \$2,600,000 were imported into the United States—another record. Merchandise entered free of duty in May amounted to 71 per cent of the total, and for the 12 months period to 69.3 per cent.

The imports of gold in May were \$52,000,000 and the exports \$58,000,000. The net imports of gold for the 12 months ended with May were \$775,000,000.

At the Newark Circus.
Dear Editor Melting Pot—
As Captain Bill has already spilled the beans, the Major feels that it is his duty to 'fess up and tell his experience at the circus.

I went to the circus and my goodness me, The wonderful sights that were there for to see, I'll never forget 'em, you just bet your neck!

If I live on this planet forever by heck! The crowds were so big that they lost 'em round. Both this way and that way all over the ground.

They worked on my feelings and I never shade, And their elbows rammed into my vitals like horns!

I grew flustered and worried and dryer than sin. And sick of the terrible racket and din. So I shouldered my way to a place in the crowd.

Where they said them big schooners of red lemonade! I reached in my pocket and dug up some chink.

And straight way proceeded, I bet you, to drink. Until I just felt like my tummy, tum, Was puffed up and bigger than Paddy's bass drum.

You may not believe all the things that are said.

RELIGIOUS SERVICE FOR Y. M. C. A. BOYS IN CAMP.
ark. The boys have been having a great time at the Lake. The following boys comprise the camp-roll: Francis Moran, Harry Moran, Harold Brickets, Raymond Dupier, Raymond Armstrong, Frank Taylor, Kenneth Boring, Lester Forsythe, Dale Fesler, Donald Church, Ralph Stowell, Chas. Allen, Earl Stead.

About looking too deep on the wine when it's red. And I'm sure you would never, not as quick as I made. Believe in the bliss found in red lemonade. But you take it from one who well knows it to be a fact, from the way that it acted on me. For it livened me up 'till, (once sour) I felt just as sweet and as proud as a prince.

I wandered around through the animal tent, My countenance beaming with perfect content. And at once all the beasts raised their heads up to say, Make room for the Major he's coming this way! I petted the monkeys and tickled the bear. I bearded the fiercest old lion in his lair. I quarrelled with the tiger and called him a chump. And whacked all the camels right square on the hump.

The elephants saluted as I passed them With a wave of their trunks and a wink of the eye. While the hippo' arose mid the noises To acknowledge my presence, with one awful grin. The long necked giraffe from his back in the air. Showed his teeth as a sign that he knew I was there. While the laughing hyena just giggled and joy. And the talking baboon said how are you old boy.

Just then an official approached bowing. Remarking, I'll take you into the big show. And when I was seated right next to the tender arose with his wand in his hand. With a smile on his face that resembled the moon. He said, Major dear, we will play you a tune. And the music so charmed me I fell in a swoon. And never woke up till the next day at noon.

Coming back to the city I stopped on the way. And nice friendly call on a lady to pay. But she jumped at conclusions and screamed in affright. "Get away from my doorstep you rascal, you're tight!" I tried to convince her the best that I could. That my conduct had always been played fair. But she captured my goat and I started to flee. When she threatened to sic her pet cat onto me.

My silver stood near so with one mighty spring. I kneeled down and started the thing. And off through the night in the shadowy gloom. We rambled until we were safely at home. With nerves badly shattered it took quite a while my usual good natured smile. For the I am game I will have to admit. The sight of a cat throws me into a fit!

This ends my confession and now like a sport. I leave the decision right up to the court. With the hope you'll consider my actions with care. By remembering the Major has always played fair. With conscience quite clear I now stand undisputed. The I freely acknowledged the red lemonade. Yet, I promise whatever the verdict may be. To accept like a man what is handed to me.

Major Gen'l? I. G. G. G. G.

Society

On Thursday evening Mr. and Mrs. William Schaller entertained their home in Western avenue, honoring Mr. and Mrs. George C. Jackson, whose wedding took place Friday, June 1. Mrs. Jackson was formerly Miss Kathryn Schaller.

The house was beautifully decorated in June roses, the color scheme being pink and white. Many beautiful gifts were received by the bride and bridegroom. A delicious two course luncheon was served the following. Mr. and Mrs. George C. Jackson, Mr. and Mrs. A. B. Schaller, Mr. and Mrs. August Schaller, Mr. and Mrs. Edward Schaller, Mr. and Mrs. Lawrence Schaller, Mr. and Mrs. William Gallagher, Mr. and Mrs. Charles Pifer and children, Mrs. Joseph Minor and daughter Olive, Mr. and Mrs. George Mathews, Mrs. William Kates, Mrs. Katherine Pifer, Misses Louise Schaller, Marie Schaller, Anna Mae Schaller and Walter Cramer.

Mrs. Ella MacDaniel entertained with a pretty children's party on Saturday afternoon from 3 to 5 o'clock, honoring the sixth birthday anniversary of her son Kendall.

The home was decorated with flags and flowers and patriotic decorations were used throughout the affair. The hours were devoted to games on the lawn, Helet Fitzsimmons winning the prize in the peanut hunt. The honor guest received many pretty gifts. Refreshments were served on the porch, picnic fashion.

The little guests were Louise Ralston, Dorothy Newkirk, Bernice Kent, Lucia Paine, Grace Stauffer, Mary Elizabeth Stealy, Elizabeth Henry, Mary Edwards, Helen and Esther Fitzsimmons, John Newkirk, Franklin Lumm, Donald Allison, Elliott Reed, Dick Fitzsimmons, Stewart Emerson, Fairney.

Mrs. MacDaniel was assisted in entertaining by Mrs. May Kent, Mrs. Frank Shide, Mrs. C. C. Griffith, Mrs. J. C. Fitzsimmons, Mrs. Charles Tanner presented the birthday cake. Other assistants were Miss Katherine Linn, Martha Lloyd, Naomi Dumm and Ned Stealy.

Little Misses Margaret and Frances Hutchinson, daughters of Mr. and Mrs. Ralph Hutchinson were guests at a pretty children's party in Zanesville Saturday afternoon when Mrs. Barton Hunter entertained in honor of the sixth birthday anniversary of her little daughter, Eleanor. Games and contests featured the afternoon and the favors were small silk flags.

"MAN I LOVED IS MORAL COWARD," SAYS TEACHER WHO FAILED AT SUICIDE BUT ELIMINATED ONE FROM "ETERNAL TRIANGLE"

Mrs. Roberts (left), Miss Bessie Lusk and Dr. David Roberts.

"The man I loved is a moral coward and it is due to his actions that this awful affair has happened." Hovering between life and death, Miss Bessie Lusk, a normal school teacher of Waukesha, Wis., made this assertion. The man in the case is Dr. David Roberts, a veterinary surgeon, whose wife Miss Lusk killed.

ed. She attempted suicide, but failed.

"I thought his mentality matched mine—that his conception of ideas was pure and his intellectuality a rock of ages; but he is a charlatan. He has sacrificed me and his wife on the altar of common desire," she said.

Dr. Roberts denies having sought the teacher's love.

Granville

[Special to The Advocate]
Granville, O., June 26. The great Red Cross campaign closed here last night with over \$4000 to the credit of Granville town and township, half of which has been paid Mayor Coons states that three church collections are to be added to the final amount and until they have been turned in he cannot state definitely how much over the \$4000 the amount will run. A paragraph in yesterday's Advocate should have stated that the "entire receipts from the movie benefit were turned over by Austin and Case with NO deduction by them for expenses."

Several arrests for speeding through the village were made on Sunday. One of these offenders was W. H. Pollack, president of the Automobile club of Wheeling, W. Va., who admitted that he was probably going at the rate of 30 miles an hour. He was fined and assessed the costs. He is the first out-of-the-state motorist to be arrested. Mayor Coons is in earnest in seeking to break up the practice of speeding through the village.

Mrs. Harry Thomas was hostess at the delightful outing of the King's Daughters, Monday afternoon, which was held on the lawn of her home on the Newark road. Only a brief business session, conducted by the president, Miss Lilly Jones, interrupted the afternoon's occupation of a social good time. Over 53 members and guests partook of the delicious supper served by the hostess and volunteer assistants.

Mrs. Morgan Williams and her daughter, Mrs. Anna Tight, who have been visiting at the home of Dr. George Williams in Columbus for several weeks, have returned home.

Mrs. Frank Wilson will entertain the Three M's and L Circle, Wednesday afternoon at her home on the Lancaster road.

Dr. C. L. Williams, who went east some weeks ago, writes from Ocean Grove that after a month of absolute quiet in the country, he is feeling decidedly improved in health, and that he and Mrs. Williams are enjoying the ocean breezes.

Miss Ruth McKibben, who has spent a fortnight at the home of her father, Dr. George F. McKibben, returned to Cleveland yesterday.

Mrs. Robert Hunt, with two children, of Springfield, who is visiting her parents, Mr. and Mrs. Frank Moore in Newark, was a Granville visitor yesterday.

Herbert Shorney of Chicago, and Henry Arnold of Mt. Vernon, two former Denison students, who were to have sailed for France to enlist there in the American field ambulance corps, have been admitted to the Chicago unit, soon to be sent to the front, as it happens there were just two vacancies to be filled.

NEW RETHEL

Mr. and Mrs. Ray Feasel and family and William Feasel spent Sunday with Mr. and Mrs. Chester Ford at Halem.

Rev. and Mrs. Marshall Grey of Croton, Mr. and Mrs. Eliza Deboit were Sunday guests of Mr. and Mrs. H. J. Deboit.

Visitors at the A. S. Grandstaff home last week were as follows: Rev. and Mrs. Marshall Grey, Mrs. Charles Garner and daughter Ada of Croton, Mr. John Day of Olive Green, and Mr. I. N. Payne of Johnston.

Mr. and Mrs. G. E. Murphy and daughters, Mr. and Mrs. Merlin Murphy were Sunday guests of Mr. and Mrs. Al Huff at Vans Valley.

Mr. and Mrs. S. A. Grandstaff entertained Wednesday evening, June 20th, with miscellaneous showers in honor of their daughter and husband, Mr. and Mrs. Merlin Murphy, the occasion also being the birthday anniversary of Mrs. Murphy. Long before dark friends began to gather till they reached the number of 156, and many gifts were received.

Mr. and Mrs. Ralph Mathews of Appleton, Mr. and Mrs. Arthur Glaze spent Sunday with Frank Buel and family.

Miss Nora Sheets returned to her home at Croton Sunday after spending the past two weeks with Mrs. Merlin Murphy.

The Courts

Many Cases Filed.
Nearly two hundred civil cases have been filed in the justice court of Fletcher S. Scott within the past week, necessitating a large amount of clerical work and Justice Scott has secured the services of Miss Mima Hohl and Miss Margaret Hayes to assist Miss Edith Green with the office work.

Settled the Cases.
Mrs. Anna Handel and son George, convicted some time ago in the justice court of D. M. Jones on a charge of cruelty to animals, and who were given time by Justice Jones, yesterday settled the cases against them. George Handel paid a fine of \$25 and the costs of prosecution while the fine against his mother was suspended upon the payment of the costs in the case.

Justice Jones' Court.
Merle Sheppard, son of Constable William Sheppard of Toboso, pleaded guilty in Justice Jones' court late yesterday to hunting without a license and was fined \$25 and the costs, which he paid. The affidavit was subscribed to by deputy fish and game warden, B. F. Robinette. The young man's father was a former deputy game warden in Hancock township.

Divorce Petition.
Clara Karns vs. Harry Karns, is the title of a petition filed in Clerk Bert O. Horton's office today. The parties were married August 23, 1910. Plaintiff alleges in her petition that defendant abandoned her April 28, 1917, leaving for parts unknown, declaring that he would never in any way provide for her. She also alleges that defendant used intoxicants excessively, called her vile and indecent names, and falsely accused her of being intimate with other men. She asks for a divorce and restoration to her former name of Clara Pingree.

To Save and Have Beautiful Hair

The best thing to use is kreamol, a liquid which you can get at almost any drug store.

A small amount, only one or two teaspoonsful will cleanse the hair and scalp thoroughly.

Simply moisten the hair with water, rub in a little of kreamol, massage well and then rinse in clean water. The hair dries quickly and evenly, and is fresh looking, bright, fluffy, wavy, and easy to handle. Besides, it loosens and removes the dust, dirt and dandruff.

Do not use cheap soap or cheaply prepared shampoos if you want to keep your scalp clean and the hair soft and beautiful.

*You will find kreamol very inexpensive as a four ounce bottle will be sufficient to last every one in the family many weeks.—Adv.

Kreamol is sold at Evans' Drug Store (Warden Hotel Block), Newark, Ohio, and Gilman's Drug Store, Granville, Ohio.

Milady's Boudoir

No woman should feel regret that her arms are thin. Slender arms are always suggestive of youth, and especially of grace. Only after the figure begins to take on flesh unbecomingly as middle age approaches, do the forearms acquire a really beautiful roundness, and a well rounded wrist and forearm usually mean too heavy a contour for show to shoulder. If the arms are kept milk white and beautifully soft and satiny, slenderness is no detriment and is rather an advantage, for after first youth slender arms accompany only the figure that lacks unbecoming embonpoint.

Red arms and rough elbows, however, whether slender or plump, are never lovely, and against which the woman who wants to make the most of her physical charms should strive persistently. There are various causes for red arms. One of them is tightness of the clothing. Collars worn too tight, corsets that constrict the waistline, armholes that are too small, may cause redness of the arms. Sometimes poor circulation is responsible for the trouble.

If the hands are constantly cold and the arms and arms are red, one must be sure that lack of circulation is to blame and the best cure will be proper exercise and brisk rubbing of the whole body with cold water and flesh brush, and afterwards equally brisk drying with a coarse towel. This will set the blood in a glow and help to distribute it properly throughout the body.

Holding the arms above the head will make the hands and forearms five white, particularly if the hands are slightly about a bit white aloft. A slight scalp trouble may be treated easily at home, but one must use some judgment in deciding upon the remedy used. When the scalp is very dry and there is a constant desquamation, which scaling is so fine as to give the hair follicles, and unless it is arrested the hair will fall out in bunches after awhile.

When the eyes are tired from reading by glaring electric light or by a fact from any other cause, you can wonderfully freshen and brighten them by a little attention. Rub down the eye with a large easy chair and relax every muscle. Have a bowl of hot water near you to dip 15 grains of borax into the water. Wet little pieces of absorbent cotton in the water and place until dry.

It is a foolish woman who makes it a practice to read on a moving train as in this way the eyes are strained and this spells disaster. Something else that most of us do, regardless of the fact that it injures the eyes, is to read in a dim light, bending over and lower over our book or bit of sewing, until our eyes are weary, our work can no longer be discerned. This is the way to obtain red, swollen lids and dull eyes.

Unless one wishes to be a short sighted dandy, it is expedient to refrain from plunging the face into the eyes when one first awakes in the morning. The pressure on the eyeball flattens the lens of the eye, and this means that it injures the sight. It is better to get up and look at the sun for a few minutes before one begins to read or to sew.

Never forget to rest the eyes occasionally during the day, as it is unwise to try them to the limit. Stop every hour, rest your eyes by closing your eyes, rest quickly for a few minutes if it is much time that you have not a two or three minute rest for the eyes will do much for them. Don't wear dotted veils, as they feed the enemies to the beauty and health of one's eyes.

Our Boys and Girls

Attention has often been called to the danger of giving medicines to babies and children, save under competent advice, but it is well to emphasize this caution, particularly in regard to proprietary preparations.

Numerous widely advertised nostrums frequently sold as "soothing" syrups, and preparations claiming to cure the "croup," "whooping" cough, "bronchitis" and the like, often contain dangerous drugs and many children have lost their lives by being given such medicines.

There is evidence to show that children, who are repeatedly dosed, but who survive, sometimes learn to crave these quieting drugs. They are restless and irritable after the effect of the drug wears off and remain so until it is repeated. The drug habit thus formed in the same way as with grown people.

If urged to use a patent medicine, the mother should always examine the label very carefully for the federal food and drug act requires the manufacturers of patent medicines to print on the label of the bottle the amount or proportion of certain dangerous drugs that may be present in the so-called remedy.

There is no reason why the proper care of babies should not be a required study in school. It certainly would be much more practical an economic benefit in later life than any of the subjects that now are required. The present day mothers who realize how handicapped they are by lack of knowledge of baby care, insist that their daughters do not so suffer from the same lack. Whatever the mother of the country does shall be taught in the school will be placed in the curriculum.

Untrained individuals have a wrong idea concerning what constitutes proper care of children. They are liable to go to one extreme or the other. They are over indulgent or they are too severe. The one disregards all rules of hygiene, and refuses to conform to any regulations "because the baby does the want of it." The undeveloped child is allowed to eat and sleep when it pleases, to follow its own caprice in all matters without regard to the effect upon its health or without consideration for the remainder of the family.

Every Day Etiquette

"Is it proper for me to ask a young man to call?" inquired Helen.

"The little courtesy of suggesting to an interested acquaintance that you will be glad to see him in your own home cannot be improper. It offers dignified hospitality and suggests friendly good will, so it is kind," answered her aunt.

"When stopping at a hotel in New York is it allowable to wear a hat and suit down to breakfast?" asked Florence.

"A suit and a hat or other street costume is usually worn at breakfast in a hotel. At some more quiet hotels, you might wear a one-piece dress or skirt and waist without a hat if you are not going out," answered her New York friend.

Get ready for canning season now. Regrets are the only things ever canned in the jars you forgot to order.

FORMER NEWARK PASTOR KILLED IN LOS ANGELES

Rev. Orville J. Nave, pastor of the First M. E. church here 35 years ago, was killed in an accident on the street in Los Angeles, Cal., according to an Associated Press dispatch last night. No details of the accident were given. He has been in Los Angeles several years doing special work for the juvenile court.

Rev. Mr. Nave will be remembered by many of the older residents of the city. He was pastor of the church here at a time when the church membership was not so large and he had his difficulties which he mastered.

After leaving Newark he held pastorates in several places in Ohio and was army chaplain at Fort Thomas, Ky. He was a chaplain in the federal army during the civil war.

He is survived by his widow and two daughters. His son, Fred Nave, was a federal judge in the southwest. He died several years ago.

FRENCH TROOPS ENTER ATHENS TO GUARD CITY

(Associated Press Telegram) London, June 26.—A dispatch to the Times from Athens says French troops yesterday entered Athens and occupied several points in the city.

This is the second time since the war began troops have been sent to Athens. The previous instance was in December, 1916. Soon after landing they were fired upon by Greek troops. They were withdrawn after the Greek government had acceded to the allies' demands for reparation.

A Reuters dispatch from Athens says there was a demonstration in the city on Sunday night and that the allied troops entered the city to assist in maintenance of order. The demonstration was organized by a number of reservists and sailors under the leadership of followers of Dimitrios Gounaris.

M. Gounaris, former Greek premier, was one of the pro-German group around King Constantine. He was deported after the abdication of Constantine.

MYSTIC SHRINE OPENS SESSION; 1,000 DELEGATES

Minneapolis, Minn., June 26.—With pomp and ceremony absent because of the war, the annual meeting of the Imperial Council, Nobles of the Mystic Shrine, opened here today with nearly 1,000 delegates present.

Addresses of welcome were made by Governor Burquist and Mayor Van Lear, with Louis F. Niedringhaus, of St. Louis, Mo., imperial potentate, responding. Only matters relating to the organization's business will be discussed and it is expected the meeting will adjourn Wednesday night.

The council will elect Charles E. Owenshire, of Minneapolis, potentate. The Advocate yesterday commented on the offer of J. Howard Jones to take care, without charge, of all legal work needed by men who enter the army or navy and also to render the same free service to their dependents. This newspaper is glad to announce that Dr. J. G. Shirer made the same generous offer several days ago by agreeing to render professional service that may be required.

Mrs. Leonard Hess who spent last week at the Sherman Rees home left Sunday night for her home in Loganport, Ind.

D. A. R. UNDERTAKE BIG KNITTING JOB FOR U. S. NAVY BOYS

Knitting for the navy is the special task set for Daughters of the American Revolution. \$5,000 of them scattered all over the United States.

"This does not interfere in the slightest with our knitting work," said Mrs. Crockett, the war relief societies or any other outlet for the vast energy of women at the disposal of their country.

The Daughters of the American Revolution state of Ohio D. A. R., defines the instructions given by the national society received from the Navy League and the department of agriculture.

"But, as we are a patriotic society holding a charter from the government, our first obligation was to ask that government what way or ways we can best serve at this time. We didn't want to dissipate time and money by making wild guesses. After consultation with proper authorities, this program was accepted by the Continental Congress convening in Washington for the destroyers."

"Adopt French war orphans." "We have chosen the destroyers and submarine chasers for various reasons," said Mrs. Harris in outlining the D. A. R. work upon her return from Washington, where she assumed her duties as state organizer.

"The submarine menace is one of the most threatening dangers besetting the civilized world today, and helping to destroy it, we would say, is our first duty. Each has a crew of at least forty men, all on duty every minute, and for them must be made levelers. Jacks, wrenches, and other tools that they may withstand the hardships of weather conditions."

Miss Dennison, who is private secretary to the president general, said in a recent letter to Mrs. Harris: "The navy is frantic for the knitted garments so that the D. A. R. may make efforts towards outfitting these small boats, the destroyers, because their crews are more exposed to the elements and the destroyers are now in actual service."

Hetuck chapter is more than anxious to do its part and has organized to meet with Mrs. C. L. Sturgeon Wednesday afternoon at the Y. M. C. A. All members of Hetuck chapter will be welcome as there is material for all knitters. The need is immediate. We need not only socks, but mittens and use it for "pick-up" work for the rest of the summer. Three months from now it may be too late.

It takes 50 yards of these garments to furnish one boat. Hetuck chapter would like to have a boat by name.

Wireless in War. There are several forms of wireless equipment used in warfare, and under favorable conditions a range of from 150 to 200 miles is possible with one of them. The most portable "station," however, is the cavalry type, which weighs 640 pounds and is carried about in equal proportions by four horses. Its range is not a wide one. It works over a distance of from twenty-five to thirty miles. The engine and dynamo are mounted on opposite sides of a rigid saddle on the first horse, together with four gallons of petrol and a quart of lubricating oil, tools, spare parts and a telescopic driving shaft. The second horse carries the transformer—which changes the current to a lighter or lower voltage—in a wooden case and in another wooden case the receiver, while the third horse carries the masts, which in some cases are in sections and in others are made on a telescopic principle. The fourth horse carries halcyons, staves and the aerial wires, which are wound round drums and pack away in a fiber case.—Pearson's Weekly.

Throwing Heat Overboard. On all seagoing steamers the steam is condensed by sea water pumped through the surface condensers. This circulating water is then discharged overboard. In the process of condensation the cooling water taken in at temperatures varying from 32 degrees to 88 degrees F., according to climatic and other conditions, is raised to temperatures varying from 80 to 120 degrees and then discharged. This great loss of heat is practically unavoidable, says the Popular Science Monthly. Even on comparatively small steamers hundreds of tons of heated water are pumped overboard daily. This constitutes one of the greatest heat losses in the operation of steam machinery, although sometimes a portion of the warm water is used for scrubbing decks and for bath water on passenger ships.

Matter and Force. There is no such thing as a loss of matter or force. The so called "conservation" of matter and its forces was demonstrated years ago by Joule and other scientists. When, for instance, a thing "burns up," as we say, the substances that give out the light and heat are changed, not destroyed. The wood or whatever the substance happens to be becomes ashes and gas, and if we could gather up all the products of the burning we should find that they had not lost a particle of their weight and that the form of them only was changed. The eternity of matter was a teaching of the old Greek philosophers, or of some of them at least, and the modern teaching of the conservation or indestructibility of the stuff of the universe would seem to corroborate the ancient idea.

Cash Value of Success. "While I do not think that success is measured by money," says a writer in the American Magazine, "an estimate of success cannot be dissociated from the cash value that is put on our work. It is the only factor of happiness that, granting material necessities, has to be reckoned in dollars."

"Success is a variant, and it is impossible to state it in a money limit. I know that the \$5,000 that is my father's salary as United States attorney brings with it to him a recognition of his ability that the same salary made in another way would not have. I know that the small checks I sometimes receive for my own work bring a glow that really isn't in the checks."

Bells Not in Favor. Greek monks are called to prayer in a fashion of their own. Bells are not regarded with too much favor in the Levant. The fact that they are an innovation borrowed, albeit in the tenth century, from schismatic Venice makes the orthodox doubt their appeal, while the Turks object to them even more strongly lest they disturb wandering spirits, says the National Geographic Magazine. For all ordinary purposes the monks use in their stead a hanging wooden plank or sometimes a smaller metal bar of which the necessary concomitant is a stout mallet.

Artesian Wells. For over 1,000 years the Chinese have obtained water through means of artesian wells. One of the most famous wells in existence is that at Grenelle, on the outskirts of Paris, where the water is brought from a depth of 1,700 feet. A well in Pesh was sunk to the depth of 3,100 feet in the seventies.

Goliath. The giant of Gath, who "morning and evening for forty days" defied the armies of Israel (I Samuel xvii) and was slain by David, was "six cubits and a span" in height. Taking the cubit at twenty-one inches would make him ten and one-half feet high.

Tit For Tat. He—These biscuits are not like those which mother used to make. She—Of course they are not. These are intended to be eaten, not talked about.—Richmond Times-Dispatch.

Quick Growing Cress. It is said that cress is the quickest growing of plants. Under perfect conditions it may be made to flower and seed within eight days of planting.

His Trouble. Grimly—Does Brown understand the purchasing power of a dollar? Blinky—Yes. What troubles him is the purchasing power of his wife!

Some men prefer any load of infamy, however heavy, to any pressure of taxation, however light.—Sydney Smith.

Hog Prices Lower.
Chicago, June 26.—Hogs weakened in price today on account of nearly 10,000 having been left over last night unsold. Cattle were scarce, especially choice steers. The sheep supply was also meager.

Wall Street.
New York, June 26.—Ralls were again the stable features of today's early operations, recording gains ranging from substantial fractions to 2 1-2 points, while other divisions of the list were irregular or heavy. Ohio Gas lost almost six points, presumably in connection with its new financing. Crucible Steel fell a point and Studebaker one-half while General Motors gained 2. United States Steel reflected further pressure but allied issues were firm. Peoples Gas made a further recovery of 2 1-4 points and Pacific Mail led the shippings. Metals and minor specialties were in light demand.

The inquiry for rails assumed wider proportions later, embracing many low grade issues; chief among these at gains of 1 to 1 1-2 points were Rock Island, Missouri Pacifi-

fic preferred, Western Maryland and the southwestern group in general. Representative rails, like Union Pacific, St. Paul, Louisville & Nashville, Reading and minor coals, advanced 1 to 2 1-2 points. Meanwhile Industrials, including equipments, became more unsettled. United States Steel reacted over a point with Crucible and Baldwin Locomotive, the motors, Industrial Alcohol and Ohio Gas made extreme recessions of 1 1-2 to 3 1-4 points. Bonds reacted slightly lower, the Liberty issue hovering, holding the par.

Short covering contributed to the moderate improvement of the final hour, with marked strength in Pacific Mail and Pittsburgh coal. The closing was irregular. Liberty bonds ruled at par on fairly large transactions.

Uncertainty marked the course of today's dealings, gains in rails and specialties being offset by losses in equipments, shippings and utilities. Sales approximated 750,000 shares.

AMERICANS AID IN MAKING OVER TOWNS RUINED BY TEUTONS

(Associated Press Correspondence)

French Front, June 11.—American, French and British civilians are working in closest co-operation with the French military and civil authorities in restoring the lands devastated by the Germans when they hurriedly quit the lines they had held for two years from Noyon to the Somme. The Associated Press correspondent after visiting Noyon, the adopted daughter of Washington, went through the entire district and observed what was being done.

Others have followed the example of the federal capital and have devoted their energies to the succor of particular localities. For instance, the American Fund for French Wounded has stepped aside from its original idea and taken full charge of the hamlet of Behercourt, with its 125 remaining inhabitants, all of whom were in the greatest distress. American women have seen to it that all these poor people are provided with their most necessary requirements in the way of food and clothing.

The Countess de Chabannes La Palice has taken to herself the hamlet of Maucourt of which only heaps of brick and stones remain and will rebuild it.

Dr. Baron Henri de Rothschild has opened a food and clothing depot at Noyon and sends everything necessary to any applicant in any part of the afflicted district.

All this, however, is but a drop in the ocean when it is realized that there are 243 villages and hamlets spread over the country which the Germans before their retreat tried to make into a desert. One hundred of these small communities are now just heaps of stones and bricks without one habitable room or cellar among them, while of the remainder one-third were partly demolished and the rest only slightly.

In this region 35,000 old men and women and young children under 15 years were left without shelter or food by the Germans. Some 12,000 of these were evacuated immediately to the interior of France where a proportion of them joined relatives.

The military authorities have grappled in a masterly way with the vast problem which confronts them of providing for a large destitute community behind the lines where a shield of French flesh and steel was holding back the Germans from a possible return. They set to work to organize the country and its people. The first step was to provide food and this was done through the military commissaries, as there was no means of civilian transportation of supplies from other parts of France.

Then came the question of putting in cultivation again the 250,000 acres of agricultural land comprised in the zone. It was late in the season but the practicable scheme was at once formulated and put into effect. Officers of high rank were placed in charge. The devastated country was divided into several sections and composed of 25 communes, each in charge of an officer with skilled aids. Horses were lent by the army, broken ploughs and harrows were repaired by motor mechanics of the army, seeds of all kinds were procured and work on the land was begun. For this manual labor was necessary and this was found among the many peasants and small farmers in the ranks.

Thirty American tractors were found lying idle in a depot not far from the stricken district and these were transported to the places where they could be most useful and put to work. The labor was dangerous owing to the presence of unexploded shells under the surface of the fields, but only one accident has occurred from this cause. In this way about 4,000 acres have been ploughed and sown with grain and grass and another 2,500 more ploughed and cleared of weeds, while with the help of American, English and French donors, every family has been provided with seeds and roots to form a truck garden, with the result that sufficient produce is expected to make the community self supporting.

BREAKING OF DAM DESTROYS TRACKS; MINES CRIPPLED

(Associated Press Telegram)

Salt Lake City, Utah, June 26.—The damage to railroad trackage and buildings and to crops, caused by the bursting of the Price river irrigation day in Gooseberry creek, Sunday, was estimated today at more than \$1,500,000.

Hundreds of thousands of dollars of additional damage in loss of traffic will be suffered by the Denver & Rio Grande Railroad because of the tie-up of the coalmines in Carbon county, which depend upon the railroad for an outlet. Thousands of miners will be thrown out of employment until the railroad is able to rebuild from 15 to 30 miles of track which has been washed away.

Three large steel bridges have been washed out, scores of highways bridges have gone and all concrete culverts in the Price river valley, between the dam and Price, a distance of 45 miles, have been destroyed.

Hundreds of residents of Castle Gate, Scofield, Helper, and other smaller points spent last night on the sides of the steep canyon through which the torrent poured.

SAFEGUARDS MUST BE THROWN ABOUT AMERICAN RED CROSS

As yet no loss of life has been reported, but numerous inquiries for missing persons have been received.

LIGHT-HEARTED WOMEN
A cheerful, light-hearted woman is the joy of a man's life. Beauty will fade, a good figure will change, but the charm of health and cheerfulness will endure to the end. But how can a woman be cheerful and happy when dragged down by some female derangement, with a headache, headache, and often on the verge of a nervous breakdown.

Lydia E. Pinkham's Vegetable Compound is the standard remedy for such ailments. During the last 40 years thousands of homes have been made happy by this woman's great remedy for woman's ills.—Advertisement.

BUNNYVILLE CENTER.

Adeline Francis, the Grafonola Story Lady, has recorded a never-told story for her little friends—"The Bunnies at Bunnyville Centre." included in a late Columbia record announcement.

The wee folk will delight in hearing about Mrs. Bunny and her three children—"Smarty" (who could speak pieces and run errands), "Marty" and "Arty" and the quaint Bunny party that was held amidst the clover blossoms.

Here is a generous good-night story, covering two sides of the disc, so charmingly told that even the grown-ups will find it interesting.

SAFEGUARDS MUST BE THROWN ABOUT AMERICAN RED CROSS

Unless due precautions are observed, misunderstandings will arise and harm be done the Red Cross by its friends. It is a fine thing that the interest in the Red Cross is so widespread in our country and that the people generally are awake to its widespread interest that certain safeguards must be thrown around the movement, lest either ill-advised or unscrupulous people damage a noble cause.

Those who desire to work for the Red Cross must obtain authorization from its officials. Should any group of people or an organization wish to give any entertainment or social, or sell articles, purchased or of their own making, for the benefit of the Red Cross, authorization from the local officials must first be obtained. The use of the Red Cross symbol is regulated by law. It may be used only under certain conditions. The use of it on automobiles, or on articles other than those permitted by the national headquarters is illegal. Let the friends of the Red Cross jealously guard its fair name.

COLORED K. OF P. MEMBERS VISIT SPRINGFIELD LODGE

Kenneth Black, Frank Norman, Charles Toney, Hunter Johnson and a number of other members of the local commandery of Knights Templar, returned yesterday from Springfield where they assisted Champion lodge of that city in observance of St. John's day. The program included a street parade, banquet, and gatherings of the fraternity in the auditorium of the North Street A. M. E. church to listen to addresses of Cory Adams, grand master of Ohio, and several others. After the anniversary exercises the Masons marched to Solomon Temple hall, led by the Knights of Pythias band of Columbus, where a banquet was served. The local visitors report a good time and state that the Springfield Masons are royal entertainers.
